WE OPEN THE WAY
DELIVERING TOGETHER

Dear Residents & Businesses

We are writing to inform you we will soon be carrying out carriageway resurfacing works on **A534 Broxton Road, Clutton.**

What to expect during these works

Preparation work: Before work begins, our team may need to prepare the site. You may notice temporary traffic management while this happens. Please check the information boards around the site or our website for the latest updates.

Getting in and out: To keep everyone safe, the road will be closed during working hours. We'll do our best to let residents and businesses through when it's safe, but please be prepared for delays. If you need access, just ask one of our team members on site.

Site safety: Our crew and machinery will be working in the road. To keep everyone safe, please follow all instructions from our site marshals and drive slowly (no more than 10mph) when you're allowed through the work zone.

Walking along the pavements: You'll always be able to walk safely along the footpaths and pavements. These will stay completely open throughout the works.

COLAS
WE OPEN THE WAY
DELIVERING TOGETHER

Parking: We kindly request that residents park cars off the road and away from the pavements during working hours. Our team needs the full width of the street to work effectively. We're unable to lay new surfaces around parked cars, and leaving vehicles in the work zone could cause delays or leave parts of the road unfinished.

Noise: You can expect some noise from the work, including machinery and reversing alarms. These alarms are a legal safety requirement to protect our crew. We'll keep the loudest work to reasonable hours wherever possible.

Weather delays: Since this work depends on weather conditions, heavy rain or poor weather may mean we need to reschedule at short notice. The information boards will always show the most up-to-date dates.

We appreciate your patience whilst these works are carried out.

Important notice:

The material used will need one to two hours to fully set, depending on weather conditions. Please allow time for the surface to fully harden before walking or driving on it.

C2 - COLAS GROUP INTERNAL: Employees and partners who need to know.
